

Workers

Safety rules for the Québec Film and Video Industry

Index of fact sheets in PDF format

General responsibilities of the executive producer or the line producer

Obligations of the main film set managers (producer, production manager, unit manager, assistant director, etc.) regarding the steps to be taken during pre-production and production. Reminder about the right to refuse work in the event of danger. Example of an intervention plan in the appendix.

DC 400-1364-1A.pdf (PDF | 111 ko)

Choice of work site

Reminder of the producer's obligations in choosing a safe workplace as well as the standards applicable to filming or recording on a public road.

DC 400-1364-2A.pdf (PDF | 50,8 ko)

Road transport (To come)

Safety rules to be applied regarding registration, permits, driving and working hours, the transportation of people, goods and hazardous materials, occupancy of public roads and traffic near workers. In the appendix, driver's daily log, the Pre-trip Inspection Report, and the signal code.

Outsized vehicles (Non-standard vehicles)

Rules to be followed and precautions to be taken when motor vehicles are used for filming or recording.

DC 400-1364-3.1A.pdf (PDF | 144 ko)

Off-highway vehicles

Rules to be followed for the use of all-terrain vehicles or other off-highway vehicles. Protective equipment to be used and rules specific to passenger transport.

DC 400-1364-3.2A.pdf (PDF | 47,1 ko)

Fire prevention

Standards to be complied with to prevent fire-related risks on sets, for example when a set is being chosen or if fire must be used for stunts and producing special effects. Reminder of the main rules of the Tobacco Act.

DC 400-1364-4A.pdf (PDF | 111 ko)

Site maintenance

General rules that workers must follow to keep the premises clean and tidy on a film set. Reminder of the main rules regarding fire protection.

DC 400-1364-5A.pdf (PDF | 49 ko)

Portable ladders and stepladders

Standard applicable to portable ladders and stepladders to be followed when using them.

DC 400-1364-6A.pdf (PDF | 88 ko)

Scaffolds (To come)

Basic principles for assembling scaffolds, and the rules to follow to use them safely.

Hoisting apparatus

Standards and safety rules to follow in using hoisting apparatus.

DC 400-1364-7A.pdf (PDF | 82,7 ko)

Camera dollies and cranes

Rules to be followed in the use of camera dollies and cranes as well as in assembling a support structure.

DC 400-1364-8A.pdf (PDF | 80,1 ko)

Boom trolley

Rules to be followed in using boom trolleys, and the responsibilities of the boom trolley operator regarding safety.

DC 400-1364-8.1A.pdf (PDF | 428 ko)

First aid

Standards to be complied with regarding the number of first-aiders necessary on the work site, mandatory qualifications of the first-aider and the first aid attendant, and the minimum content of a first aid kit.

DC 400-1364-9A.pdf (PDF | 82 ko)

First aid: Electrical burns

Precautions and steps to be taken for urgent intervention on victims of electrical burns.

DC 400-1364-9.1A.pdf (PDF | 51 ko)

Electricity

Precautions to be taken in handling different components of an electrical installation (distribution panel, circuit breakers, fuses, electrical outlets, extension cords, wires, equipment). In the appendix, a reminder of the rules to be followed during work near power lines.

DC 400-1364-10A.pdf (PDF | 82,1 ko)

Electrical installations

Rules to be followed regarding electrical installations, such as in the use of generators, lighting equipment, transportation equipment, etc. Mainly intended for lighting technicians and electricians. Contains a few definitions.

DC 400-1364-10.1A.pdf (PDF | 147Ko)

Flammable liquids

Rules to be followed and precautions to be taken regarding flammable liquids and open flames produced by torches, candles, fireplaces, etc.

DC 400-1364-11A.pdf (PDF | 79ko)

Air quality

Standards to be complied with to ensure the quality of the air on a set, and the steps to be taken to ensure worker safety.

Safety rules to be applied during a smoke or fog effect.

DC 400-1364-12A.pdf (PDF | 82ko)

Construction - Demolition

Safety rules applicable during construction and demolition work on sets and temporary structures. Safe use of paints, stains, solvents as well as plastic resins and glues.

DC 400-1364-13A.pdf (PDF | 179 ko)

Compressed air

Rules to be followed in using compressed air as a source of energy or a source of respirable air.

DC 400-1364-14A.pdf (PDF | 79,3 ko)

Animal handling

Rules to be followed to ensure the health and safety of workers when the work involves animals, particularly horses and snakes. In the appendix, a reminder of the care to be given to animals taking part in filming or recording.

DC 400-1364-15A.pdf (PDF | 111 ko)

Explosives and pyrotechnic equipment (To come)

Rules to be followed and responsibilities of various members of the team (blaster, technician, producer, etc.) during the use of explosives or pyrotechnic equipment.

Firearms

Safety measures to be complied with in the use of firearms, and the role of the armourer on sets.

DC 400-1364-17A.pdf (PDF | 113 ko)

Stunts

Safety rules to apply and precautions to be taken for stunts during filming or recording.

DC 400-1364-18A.pdf (PDF | 80ko)

Welding and cutting

Requirements, rules and standards to apply in welding and cutting work. In the appendix, safety measures for the use of acetylene and oxygen.

DC 400-1364-19A.pdf (PDF | 89ko)

Makeup and hairdressing

Rules to be followed in the makeup and hairdressing room and regarding the products used there. In the appendix, precautions to be taken in the production and application of prostheses.

DC 400-1364-20A.pdf (PDF | 85 ko)

Use of aircraft

Safety rules to apply and precautions to be taken when an aircraft is used for the requirements of the work. In the appendix, a reminder of the safety rules for the use of an airplane or a helicopter.

DC 400-1364-22A.pdf (PDF | 337 ko)

Skydiving

Safety rules to be applied and precautions to be taken for parachute jumps during filming or recording.

DC 400-1364-23A.pdf (PDF | 80ko)

Work on or near water

Safety rules to be applied during work on or near water. There is also a description of the documents required by the CSST.

DC 400-1364-24A.pdf (PDF | 86,2 ko)

Underwater diving

Standards to be complied with and safety rules to apply in underwater diving work.

DC 400-1364-24.1A.pdf (PDF | 80,2 ko)

Work on ice fields

Safety rules and measures to apply when work is done on a fresh water ice field.

DC 400-1364-24.2A.pdf (PDF | 51,7 ko)

Controlled products (WHMIS)

Safety rules to apply regarding hazardous materials. As a complement, a table of the six categories of controlled products, as they are defined by the Workplace Hazardous Materials Information System (WHMIS).

DC 400-1364-25A.pdf (PDF | 279 ko)
